EdX Summit

Education Experience Summit

Leading international thought leaders, policy makers and experts share best practices, insights and the latest educational trends with Cyprus-based educators, school and university executives, policy makers, business community representatives and parents.

Global Expertise Exchange

The Summit serves as an ideal forum for educational leaders, policy-makers, academics, educators, teacher trainers and parents to network, share best practices, and celebrate successes in nurturing the creative thinkers of tomorrow.

Collaborative Educational Vision

Our goal is to facilitate long-term collaborative relationships and to jointly create programs and activities that will ignite and further develop passion for ESTEAM education and careers, as well as to "Educate the Educators."

Competitions & Awards

- **ESTEAM Projects Contest**

We reward Entrepreneurship, Science, Technology, Engineering, Art, Mathematics Projects carried out by children at Primary and Secondary levels. We are committed to ensuring that each project is recognised and receives the acknowledgment it deserves.

- Cubing League Tournament
- Games Hackathon
- STEM Robotics Competition
- University Math Olympiad
- Young Minds Debate
- Cyber Sport Cup

Stats and Achievements

Since the launch in 2023 the overall results are:

800+

Over 800 children from both public and private schools got identified and awarded for their projects that demonstrated passion for creativity, technology, innovation and STEM education

6,000+

Over 6,000 children, including those from the underprivileged families, got engaged in activities and events that will enable them to acquire future proof skills

200+

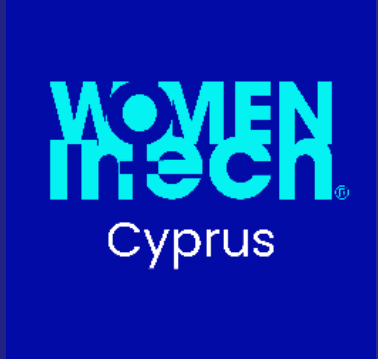

We acknowledged and awarded over **200 exceptional educators** for their amazing dedication to equipping our children with the future proof skills and engaged over 400 additional teachers to follow the same path

10,000+

Provided the platform that have united over 10,000 parents from different backgrounds thus enhancing cross-cultural relationships and communication all based on the love for our children's wellbeing and future
